COLOCATION IN THE FUTURE HUB OF TELECOMMUNICATIONS CONNECTIVITY IN THE PACIFIC NORTHWEST

South Hill Seattle Data Center is the ideal location for enterprise and wholesale organizations with mission critical telecommunication and data center requirements. The future hub of telecommunications connectivity in the northwest United States, our South Hill Seattle Data Center campus offers immediate availability to abundant space connectivity and power. South Hill also has redundant and diverse fiber routes supported by over 25 years of trusted corporate service and custom solutions.

- ✔ **PRIMARY ENTERPRISE DATA CENTER**
- ✔ **HIGH-DENSITY AND HIGH-POWER CABINETS**
- ✔ **HYBRID CLOUD DEPLOYMENTS**
- ✔ **HIGH-PERFORMANCE COMPUTING**
- ✔ **ALTERNATE DISASTER RECOVERY LOCATION**
- ✔ **SECURE AND SAFE INTERCONNECTION SITE**
- ✔ **MULTI-CARRIER EXCHANGE FACILITY**

PERFECT CONNECTIVITY
- Redundant and diverse fiber routes to the WBX Seattle, Washington Carrier Hotel; the Pittock Internet Exchange in Portland Oregon; TransPacific Cable Landing and Distribution Stations; and other key US West Coast network access.
- A variety of interconnection services and cross connection options, offering a diverse selection of high-performance and low latency connectivity.
- Blended IP internet access, as well as multiple Tier 1 and 2 direct carrier network connectivity options.

PERFECT POWER, COOLING, AND SCALABILITY
- Over 200,000 ft^2 of colocation space fed by a dedicated, dual-fed 50 MW substation to meet any power requirement.
- LEED Gold certified with N+1 redundant power and cooling systems.
- Advanced evaporative cooling system designed to maximize cooling effectiveness with a minimal environmental footprint.

PERFECT SUPPORT AND EXPERIENCE
- 24/7 managed services including on-site staffing and server management.
- Custom solutions offering private cloud services and custom IT development.
- Manned and monitored security controlled mantrap and biometric checkpoint access points.
- Private campus located within minutes of Seattle Tacoma International Airport, but safely removed from in-city and environmental hazards.
